PERICLES | MARITIME CULTURAL HERITAGE

EU-funded research and innovation project running from 2018-2021.

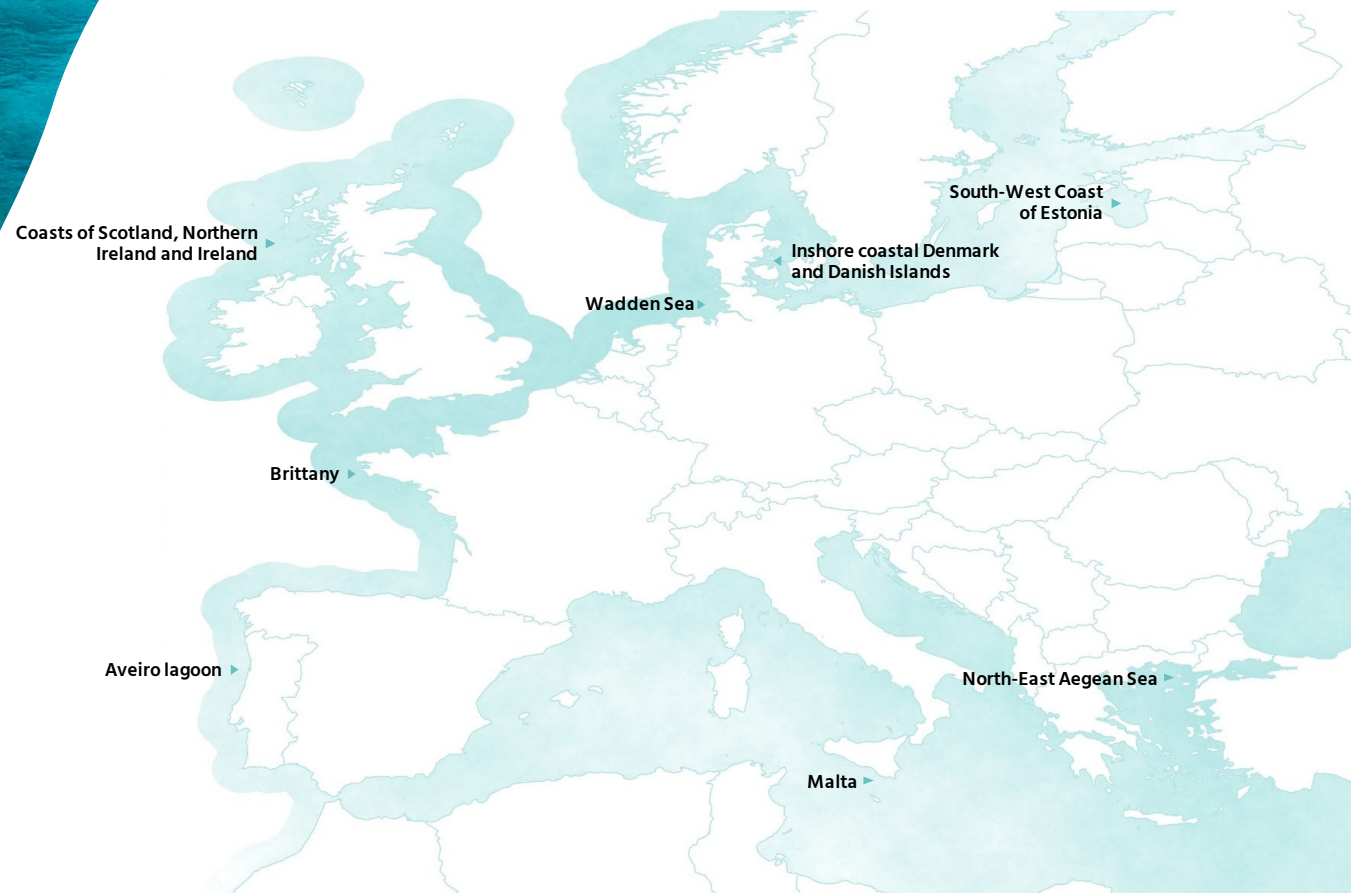

PERICLES promotes sustainable, participatory governance of cultural heritage in European coastal and maritime regions through a unique interdisciplinary and geographically wide-ranging approach. The overall aim of the project is to develop and demonstrate a comprehensive framework to understand, preserve and utilize maritime cultural heritage for societal good.

PERICLES | ABOUT

Great challenges are faced in the on-going effort to sustainably govern cultural heritage in European coastal and maritime regions. In order to meet these challenges, PERICLES will:

- ◆ develop an in-depth, situated understanding of the cultural heritage of marine and coastal land/seascapes, including knowledge across local, spatial, environmental, social and economic aspects;
- ◆ develop practical tools, based on stakeholder involvement and participatory governance, for mapping, assessing and mitigating risks to cultural heritage and to enhance sustainable growth and increase employment by harnessing cultural heritage assets;
- ◆ provide policy advice to improve integration of cultural heritage in key marine and environmental policies and the implementation of associated EU directives;
- ◆ develop effective knowledge exchange networks.
